

## Why Choose us?

### Cold Process

Preserves the goodness of our natural ingredients which will deep cleanse & retains natural glow of your skin.

### Natural Ingredients

100% Vegan. Premium quality Coconut Oil, essential oils and ingredients. Natural fragrance & color

### Gentle & long lasting

The long curing process ensures our soap becomes milder & last longer in shower.

### Smooth & Rich Lather

With perfect combinations of oils, our soap gives you creamy lather & bathing bliss.

### Eco-friendly

Our products are natural, which are returned to environment without causing any hazard

### Natural Glycerin

Natural Glycerin is generated in cold processed soap which retains skin moisture.

How we make cold processed Handmade soap ?

- 1 Prepare lye solution using water

- 2 Pour lye mix into oil and emulsify

- 3 Add herb ingredient and essential oil

- 4 Pour mix into soap mold

- 5 Remove from mold after 24hrs

- 6 Allow for curing (6-8 weeks)
